

## **Human G-protein Chemokine Receptor (CCR5) HDGNR10**

### ***Abstract***

5           The present invention relates to a novel human protein called Human  
G-protein Chemokine Receptor (CCR5) HDGNR10, and isolated  
polynucleotides encoding this protein. The invention is also directed to human  
antibodies that bind Human G-protein Chemokine Receptor (CCR5)  
10       HDGNR10 and to polynucleotides encoding those antibodies. Also provided  
are vectors, host cells, antibodies, and recombinant methods for producing  
Human G-protein Chemokine Receptor (CCR5) HDGNR10 and human anti-  
Human G-protein Chemokine Receptor (CCR5) HDGNR10 antibodies. The  
invention further relates to diagnostic and therapeutic methods useful for  
15       diagnosing and treating diseases, disorders, and/or conditions related to this  
novel human protein and these novel human antibodies.
